

California OES Weather Threat Briefing

Monday, November 23, 2020
9:00 AM PDT

- **Day 1 (Monday):** Elevated fire weather conditions expected over the southern California mountains where locally gusty conditions and low humidity continue. Otherwise, quiet weather will prevail for much of the state today.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

11/23/20 - 11/29/20

Monday-Tuesday

- Elevated fire weather conditions are expected through Monday night over the southern California mountains where winds will locally be gusty up to 35 mph and humidity will remain low
- Light precipitation will return to far northwestern California Sunday through midweek, with otherwise dry and quiet weather conditions expected for much of the state over the next 7 days
- Gusty north winds are expected to develop locally in the North and East Bay Hills Monday night and continue into Tuesday morning

Wednesday-Sunday

- Breaking waves could reach 25 feet on NW facing beaches of the north coast Wednesday and Thursday
- Dry and localized breezy conditions are expected statewide late this week
- There is an increasing chance of a weak to moderate Santa Ana wind event for Thursday night into Friday, with the strongest winds expected Friday
